Jasmine Broadband Internet Infrastructure Fund Report and interim financial statements For the three-month and six-month periods ended 30 June 2017 Independent Auditor's Report on Review of Interim Financial Information

To the Unitholders of Jasmine Broadband Internet Infrastructure Fund

I have reviewed the accompanying balance sheet, including details of investments as at 30 June 2017, the related statements of income for the three-month and six-month periods then ended, and the related statements of changes in net assets and cash flows, and significant financial information for the six-month period then ended, as well as the condensed notes to the financial statements of Jasmine Broadband Internet Infrastructure Fund. The Fund's management is responsible for the preparation and presentation of this interim financial information in accordance with Thai Accounting Standard 34 *Interim Financial Reporting*. My responsibility is to express a conclusion on this interim financial information based on my review.

Scope of Review

I conducted my review in accordance with Thai Standard on Review Engagements 2410, *Review of Interim Financial Information Performed by the Independent Auditor of the Entity.* A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Thai Standards on Auditing and consequently does not enable me to obtain assurance that I would become aware of all significant matters that might be identified in an audit. Accordingly, I do not express an audit opinion.

Conclusion

Based on my review, nothing has come to my attention that causes me to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with Thai Accounting Standard 34 *Interim Financial Reporting*.

# Jasmine Broadband Internet Infrastructure Fund Notes to interim financial statements

For the three-month and six-month periods ended 30 June 2017

#### 1. General information

#### 1.1 Basis of preparation of interim financial statements

These interim financial statements are prepared in accordance with Thai Accounting Standard No. 34 (revised 2016) *Interim Financial Reporting*, with the Fund choosing to present condensed interim financial statements. However, the Fund has presented the balance sheet, details of investments, the statements of income, changes in net assets and cash flows, and significant financial information in the full format as that will be used for the annual financial statements, which are in accordance with the basis and formats as required by Thai Accounting Standard No. 106 *Accounting for Investment Business*.

The interim financial statements are intended to provide information additional to that included in the latest annual financial statements. Accordingly, they focus on new activities, events, and circumstances so as not to duplicate information previously reported. These interim financial statements should therefore be read in conjunction with the latest annual financial statements.

The interim financial statements in Thai language are the official statutory financial statements of the Fund. The interim financial statements in English language have been translated from the Thai language financial statements.

#### 1.2 Significant accounting policies

The interim financial statement are prepared using the same accounting policies and methods of computation as were used for the financial statements for the year ended 31 December 2016.

#### 1.3 New Financial Reporting Standards

During the period, the Fund has adopted the revised financial reporting standards and interpretations (revised 2016) and new accounting treatment guidance which are effective for fiscal years beginning on or after 1 January 2017. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards, with most of the changes directed towards revision of wording and terminology, and provision of interpretations and accounting guidance to users of standards. The adoption of these financial reporting standards did not have any significant impact on the financial statements of the Fund.

#### 2. Investments in the optic fiber cable assets ("OFCs")

On 10 February 2015, the Fund entered into the Asset Sale and Transfer Agreement with Triple T Broadband Plc. ("TTTBB") to purchase of the OFCs at a price of Baht 55,000 million. Under the agreement, TTTBB shall deliver and transfer the OFCs approximately 980,000 core kilometers whereby TTTBB is to transfer not less than 800,000 core kilometers of the OFCs (equivalent to Baht 45,527 million) on the contract date and will gradually transfer approximately 180,000 core kilometers of the OFCs (equivalent to Baht 9,473 million) within two years.

In November 2016, TTTBB had completely transferred and delivered the OFCs totaling of 980,500 core kilometers to the Fund in accordance with the agreement.

In addition, the Fund entered into agreements in respect of investment in the OFCs as follows; Main Lease Agreement, Rental Assurance Agreement, OFCs Maintenance Agreement, Marketing Services Agreement, and Loan Agreement, which had significant summary details as described in Note 7 to the financial statements for the year ended 31 December 2016. On 27 June 2017, the Fund informed the renewal of Rental Assurance Agreement and Marketing Service Agreement with TTTBB for additional periods of three years from their expiration dates. These renewal periods commerce from 11 February 2018.

On 30 June 2017, the Fund engaged an independent appraiser to review the fair valuation of the investments in the OFCs using the income approach. The Fund revalued such investments to be as new fair value amounting to Baht 57,578 million (31 December 2016: Baht 55,951 million), resulting in the net unrealised gain from the revaluation amounting to Baht 1,627 million, which was recorded in the income statement for the six-month period ended 30 June 2017.

During the second quarter of 2017, the Fund declared a reduction in the value of the investment units of Baht 0.0237 per unit, or a total of Baht 130.4 million (2016: Baht 0.0838 per unit, or a total of Baht 460.9 million), without any change in the number of units, in order to decrease the excess liquidity arising from the advance rental payment amounting to Baht 816.5 million that the Fund received from TTTBB pursuant to the Main Lease Agreement. This procedure is in accordance with the Fund prospectus. The advance rental payment is the rent for the last three months under the Main Lease Agreement that will be incurred in 2026. Therefore, this capital reduction may result in unitholders receiving less dividends in the future, as the advance rental payment has already been paid out in the form of a capital reduction and the Fund will not receive the rental payment in this amount in the future. In addition, in the event of force majeure, where the Fund does not have the OFCs to lease for TTTBB and the Main Lease Agreement is terminated, the Fund will be obliged to return the advance rental payment to TTTBB, in whole or in part, provided that TTTBB has fulfilled all of its obligations under the Main Lease agreement.
